MEMORANDUM FOR: Col. Leo P. Geary

SUBJECT: Survey of EWP Withdrawal Bases for
Detachment B

25X1A

1. To properly evaluate the capability to use [redacted] as EWP withdrawal bases, it is recommended that the Commander, Detachment B, proceed to these bases to conduct an on-the-spot survey.

2. It will be necessary to first determine what facilities would be available for Detachment B's use in the event of the EWP. This will require knowledge of planned use of the bases by SAC and other Units during an emergency.

3. Among the items to consider will be hangar and maintenance space for aircraft, and equipment peculiar to this unit. Film processing facilities, communication facilities, fuel supply, transportation and general house-keeping facilities must also be investigated. Security from a cover standpoint would not be a problem in the event of actual war, however, physical security from sabotage is always a consideration.

4. While many statistics about these bases can be established from various airfield facilities publications, it is felt that an on-the-spot survey is a must, not only to see the actual facilities available, but to properly coordinate the plans of all units concerned with the use of the bases in the event of an EWP.

3. Expected Additional or Related Work or Services: None

25X1A

25X1A

4. Total Estimated Cost:
Funds have been set aside and/or adjusted to cover entire amount
during FY-59. SIGNED

5. Delivery Schedule or Period of Performance: Mobile homes and air conditioners to be purchased in June 1959. Installation and construction of storage space to take place from present date to approximately 1 October 1959 provided that USAF, Detachment 10 will be able to commence work promptly.

25X1A

25X1A

6. Remarks: At present there are Agency owned house trailers on location at Adana which were purchased in October 1958 at a cost of
Utilities and other installation support items were furnished by HQ, USAF.
In order to provide essential air conditioning, the Agency purchased units (2 per each set of quarters) at a total cost of The additional house trailers will provide sufficient quarters to allow all assigned personnel adequate base housing. At the time when there is no valid operational requirement for CHALICE assigned personnel in the particular local, these trailers could be relocated or transferred to another governmental agency in the area to fulfill already existing requirements. Should this proposal receive favorable consideration, it would negate the requirement for Turkish civilian houses on which leases expire in October and November 1959. These leases total approximately annually. This includes maintenance, utilities and guard service. Numerous incidents have occurred in Turkey in which have been involved. To date CHALICE
